

Alfalfa Seed Commission
GM Report
January 15, 2019

I am currently working on closing the books for 2018 to deliver to the accountant by end of the month, first week of February. I will also be submitting payroll information for T4 paperwork to Bevan.

I have started to compile lists of information regarding research dollars for the SR&ED tax credit to get to the accountant, and then they do the rest of the paperwork. Brad and I will need to sit down and make sure we haven't missed anything and add in any of his research hours regarding this as well. Once this is complete we can send a message to our producers with a reference number that they take to their accountants with.

Wrapping up the levy refund requests for the 2017 crop year as the deadline was December 31st. I have 4 still to process and we are looking at a total of 21 for this year, up from 17 for 2016. The dollar amount paid back is higher than 2016.

Board member lists requested from last meeting.

AGM/Spring meeting date is set for Wednesday March 27, 2019; guest speaker is Todd Hirsch.
