

SR&ED TAX CREDIT

NEW!!

The Scientific Research and Experimental Development (SR&ED) tax credit allows Commission Members to claim what was used to fund qualifying research based on contributions through their seed sales.

Alfalfa Seed Growers that belong to the Alfalfa Seed Commission (Alberta) qualify for a 20% tax credit on paid levies for the 2018 tax year. If you have requested a refund of those levy dollars, it applies only to any money left with the Commission.

All you have to do is talk to your accountant and inform them that you are eligible for this deduction and they will do the rest!
